## Chapter 1. Sum Up

# Chapter 2. Subtract

## What is subtraction of numbers?

Here you will learn what subtraction is.

To successfully perform the task of subtracting numbers, you must know what subtraction is. The term "subtraction" represents a mathematical operation. Subtraction is a process, an action that you perform using numbers. Subtraction allows you to find the difference of 2 numbers.

You use the minus (-) button to express the subtraction operation in the app.

In the subtraction process, you take a number and reduce it to a smaller number. That is, we take away one number from another.

## How to subtract numbers

Here you will find instructions about using the subtraction feature of JPS Calculator app.

To successfully subtract numbers, you must know what subtraction is.

Follow these steps to perform subtraction:

1. Enter the first number.
2. Choose the minus (-) button.
3. Enter the second number.
4. Choose the equals (=) button.

The result from the subtraction is displayed.

You want to subtract 2 from 3. The equation will look like:  $3-2=1$ . You enter 3. Press minus. Enter 2. Press equals.

The result 1 appears on the screen.
